

# Hybrid Vehicle Course – 2 Days

## Level 3 Award in Hybrid Electric Vehicle Repair and Replacement (City & Guilds 4290-71)

Learn more about how to maintain, service and repair hybrid and electric vehicles Awarded by City & Guilds.

Once complete you will gain your Level 2 Award in Hybrid Electric Vehicle Operation and Maintenance & Level 3 Award in Hybrid Electric Vehicle Repair and Replacement.

The Hybrid and Electric Vehicle Course is designed to offer experienced technicians all aspects of hybrid and electric vehicle systems from operations to diagnostics including safe working practices when servicing and repairing.

On this course the delegates will Strip, Test and rebuild a Prius High Voltage Battery.

The Hybrid and Electric Vehicle Course will develop your skills around hybrid technology vehicles. You will focus on:

- Hybrid & Electric Safety
- Operation Principles
- Series & Parallel
- Motor Assisted Systems
- Extended Range Hybrids
- Electric Vehicle Operation
- Servicing & Maintenance
- Diagnostics.

On completion, technicians will be able to practically demonstrate that they have the knowledge and skills required for repairing vehicles with high voltage hybrid technologies.

This fast track route is ideal for technicians who maintain, service and repair Hybrid or electric vehicles and have a good background knowledge.
